

Give Leaks the Attention They Deserve!

3

Common Causes of Leakage

- ✓ Unreliable seals
- ✓ Improper tube fittings installation
- ✓ Poor material selection

On the average, a small instrument air tube fitting with a working pressure of 7 bar will leak at the rate of

17.6 liters per minute.

That will cost your company

SGD 236.27 per leak per annum.

If 100 fittings are leaking, that's a total wastage cost of

SGD 23,627 per year!

Replacing 100 fittings will cost below

SGD 2,000

Waste is over 10 times the cost of replacement

Call us now at **63635242** or email us at marcom@swagelok.com.sg and discover ways to save leak wastage cost.
